

## Meeting Minutes - GIS PROGRAM LEADERS (GPL) COMMITTEE, December 14, 2021

State of Oregon

GIS PROGRAM LEADERS (GPL) COMMITTEE

Date: December 14th, 2021

Time: 1:30-3:30pm

Microsoft Teams meeting

### Roll Calls, Introductions, and Announcements (All)

- Scribe: ODOT
- Attending: DEQ – Malavika Bishop; OEM – Daniel Stoelb; DAS – Rachel Smith, David Mather, Tom Elder; ODF – Steve Timbrook, Arthur Rodriguez; OWD – Dorothy Mortenson; DOGAMI – Ed Buckner; OPRD – Brady Callahan; ODA – Diana Walker; DLCD – Tanya Haddad; ODOT – Philip Smith; ODFW – Jon Bowers; INR – Myrica McCune; Esri – Terri Morganson; ODR – Phil McClellan
- Guests: ODFW - Courtney Zamboury, Rachel Wheat, Justin Ainsworth

### Announcements

- OGIC membership announcement sent regarding vacancies, contact Rachel Smith.
- Pictometry and oblique imagery announcement sent out. Both oblique imagery contracts have been extended. contact Rachel Smith for more info.
- Call for other announcements.
- Statewide Land Use and Data Standards is due for public comment by Friday this week.

### GPL 2022 planning

The incoming Chair is Malavika Bishop (DEQ) and Vice-Chair is Thom York (DOR). Joe will provide Malavika the Agency participation list and scribe rotation materials to pass along the transition. Malavika will be reaching out for agenda items. The State offices planned to open at the beginning of the new year.

### State CDO and Geo Enterprise Office (Rachel Smith)

OGIC update

Rachel sent an email to the listserv on vacancies with two positions open for water, land, air quality, natural resources or infrastructure and one position open for public health, human services, education, or economic or community development. Send any related recommendations or questions/thoughts to Rachel.

The OKR review team for tracking assignments is doing a wholesale review. Rachel recently provided an update on this to the TAC. The TAC/GPL/PAC have OKR's that break apart from

## Meeting Minutes - GIS PROGRAM LEADERS (GPL) COMMITTEE, December 14, 2021

primary OGIC goals and will make recommendations in January for improvements to the OKR process. The next meeting is January 26<sup>th</sup> with some administrative changes to return structure for transparency with engaging OGIC members. Note that Daniel mentioned standards are in review. The TAC is reviewing soils standard to take to OGIC for endorsement. OGIC's assignment from October to the FIT leads will be starting soon.

### Framework update

The FIT OGIC assignment is to update the data element list. The next FIT Leads meeting is scheduled for the 1<sup>st</sup> week of January. You can expect monthly meetings to keep the FIT Leads assignments in progress but it is not yet scheduled. DAS GEO will present two items: (1.) A draft process on an update for FIT leads to review with their input and (2.) Willow Crum has been helping with the framework process and template to collect framework elements. We will do a more in-depth data element review in 2022.

Two Framework Data Standards are under review. The Oregon Tsunami database and the Statewide Land Use are currently out for public comment. Please review and send comments to Willow. We have FIT Lead vacancies including Admin, Land Use, Bioscience have no leads identified. The Elevation and Utilities FITs both have potential leads identified. The nominations to OGIC will be presented in January, therefore the deadline is in a couple of days. If interested, let Rachel know. The FIT nomination form is available on the DAS GEO framework web page.

### GEO/CDO Update

Rachel is leading the imagery coordination with help from Brady C. Tom Elder is leading the effort to update the address geocoder. The AGOL management and auto messaging the previous update from Josh is being transitioned to Tom Elder. Let Tom know if you have any questions.

We continue supporting the LPRO in publishing new legislative districting data and ensuring authoritative districting data and metadata. Some files are available now from LPRO. GEO will publish soon. This will replace the 2010 district data in the spatial data library. We may maintain the 2010 data access as legacy data but it will no longer be the authoritative source.

Regarding the Esri critical vulnerability. We advise upgrading to 10.8 as recommended to mitigate the log4jshell vulnerability.

The upcoming Esri conferences including the Dev Summit and UC pages designate in-person as vaccinated only, and proof of vaccine is required prior to registration. We hold 14 complimentary seats that are made available as first come/first serve. We expect digital access to UC but the cost and details have not yet been posted. The Dev Summit is unclear if digital access will be live. Attending costs are \$1200 live and \$300 digital through EA.

## Meeting Minutes - GIS PROGRAM LEADERS (GPL) COMMITTEE, December 14, 2021

Terri Morganson - nothing additional to add at this time. (1/2 of AP credit for digital participation) Esri IAA amendments and invoicing. If not finalized by your agency, please reach out.

### GEO/CDO Updates

Our office has open recruitments underway (data and operations coordinator and content strategist). Also be on the lookout for the forthcoming: ETL developer-ISS7 and Equity and Analytics- ISS8 positions.

### GDMS Updates

The Spatial data-sharing project is for this biennium only as it was funded via a Policy Option Package. The key components include: GeoHUB Portal, Data Development and Project validation, Data sharing governance and data management. See details on provided slides. We will need users for testing GEOHub Portal and aligning data development with GeoHUB workflows and governance for framework data program with robust inventory and a public-facing dashboard. The Data development focuses on working on roads, wildfire, workforce, elections. DAS GEO is procuring a consultant to help with the project and will work with GPL for review and validation pieces of the project. Rachel provided an overview of high-level project schedule.

### **OEM and Prep FIT Update (Daniel Stoelb, Don Pettit)**

We held our meeting earlier today with almost 40 people on the call. There is talk now about how the PrepFIT program will be moving forward. We are building a community of practitioners for supporting the emergency management community. We are transitioning the catalog of static layers into streaming services. A GIS coordinator directory and planning documents are being published. An exercise is intended in the future to help our planning for events. A new 911 GIS coordinator Alex Petzold has been hired and Daniel will share contact.

### **Imagery Update (Brady Callahan)**

We held the Imagery Framework meeting last week. Oblique imagery contracts with EagleView (Pictometry) and Sanborn have been renewed for two years. We are looking at making imagery available as service. Brady shared a slide of 2022 Oregon Imagery acquisition options that may include the existing contract with Quantum Spatial, a NAIP Partnership option, and future options after the existing contracts are complete. Money for this effort is needed. Essentially we need to pass the hat again across agencies to help support the effort. We currently have \$100K from FIT leftover funding as seed capital on the project.

## Meeting Minutes - GIS PROGRAM LEADERS (GPL) COMMITTEE, December 14, 2021

### GIS Program at ODFW (Jon Bowers, Courtney Zamboury, Rachel Wheat, Justin Ainsworth)

Presentation materials provided to the listserv:

Development Planning Overview – Jon Bowers

Early Prediction Method for Native Migratory Fish Presence at Small ODOT Culverts – Courtney Zamboury

Oregon Connectivity Assessment and Mapping Project – Rachel Wheat

Marine Fisheries / Offshore Wind – Justin Ainsworth

### Roundtable (All)

DEQ – Malavika Bishop - no report.

Revenue – Phil McClellan reports DOR is preparing the annual submission of tax lot data.

DAS GEO – Rachel Smith – no further report.

Forestry – Steve Timbrook introduced Arthur Rodriguez as the new GIS coordinator for ODF.

Water Resources – Dorothy Mortenson reports some additional monies from cannabis enforcement to the agency. This may have an impact on GIS support

DOGAMI – Ed Buckner - no updates.

Parks and Recreation – Brady Callahan reported the recent hires of two LD GIS Analysts to support internal projects in archaeology and framework.

Agriculture – Diana Walker commented that the ArcGIS online reports from DAS are very helpful. Agriculture is working through the critical vulnerability. The IS manager position is being reprioritized.

State Lands – Randy Sounhein- we moved license servers to the State Data Center (SDC). We are now moving enterprise installs to the SDC as well. We are restructuring some databases, updating data and websites.

DLCD – Tanya Haddad - no updates. Question: Our IT has asked what is the best place for them to find out from Esri on updates to desktop? Routinely we receive new versions from Pro. Dave Mather answered that he receives updates and will share the information.

ODOT – Phil Smith – no updates.

Meeting Minutes - **GIS PROGRAM LEADERS (GPL) COMMITTEE, December 14, 2021**

ODFW – Jon Bowers reports that Dorothy’s mobile app would be good to see. We are also working on hiring for framework project – temp probably eventually LD ISS4. The replacement for Arty is pending. We are working with DEQ on the fish habitat distribution data development.

Institute for Natural Resources – Myrica McCune reported the recent publication of a beta app for Oregon Explorer [https://tools.oregonexplorer.info/OE\\_HtmlViewer/Index.html?viewer=renewable](https://tools.oregonexplorer.info/OE_HtmlViewer/Index.html?viewer=renewable)

Marine Board – Joe Severson reported on the new mobile tool to report on the water activity.
