- GIS In Action (and Data Fair) on April 17 and 18

Previous meeting minute approval

- Approved with revision of round table check-in note attributed to ODF corrected and moved to OSPR.

GEO – updates by T Burcsu

- Cy Smith email report: Below is a brief update on our progress with the statewide geocoder update. The data sharing bill that will put OGIC in statute and mandate Framework data sharing between all public bodies was introduced by JLCIMT last week. It's HB 2906. I'm also tracking HB2327, an OWEB bill that deals with geospatial data to a certain extent, as well. I've been in communication with Renee Davis and their legislative coordinator about that one to make sure it aligns with HB2906 at the end of the day. We will continue to meet with the data sharing stakeholder group to ensure we have agreement as the bill gets public hearings.
- Data Sharing Workgroup meets February 22, 2017
- Geocoder in development, partnering with DHS continues, one to two weeks from publishing.
- Framework – new version of metadata standard posted and editable via Google docs. May access through GEO website
- Upcoming Framework work group meetings
 - Geosciences - Early March
 - Powerlines/Utils Friday, February 17 Online
 - Data Catalog - mid March
 - Elevation FIT - Fri (Portland) DOGAMI
- GeoCalendar has link to subscribe to add all FIT calendars into Outlook
- Finalizing funding RFP
- There are a number of proposals seeking collaborators

DRAFT

- Bathymetry atlas in work at PSU. Partnering with water agencies and bathy users. Can connect interested parties to contact person
- Statewide buildings data developing at Prep-FIT. Overlaps with LU/LC workgroup and looking at building uses for this layer. Determining data structure led by DOGAMI across several FITs.

GNS/GPS/AGOL working group discussion (ALL)

- Work group meeting concept discussed
- Recommended to maintain a State ELA Agency emphasis for initial scope
- Include Josh Tanner, GEO
- Schedule next 20 -30 days
