Prepared by the U.S. Army Topographic Command (TPCS), Washington, D.C. Compiled in 1954 by photogrammetric methods. Planimetry revised from aerial photographs taken 1952. Photographs first annotated 1953. Revised in 1973 by the U.S. Geological Survey from aerial photographs taken 1973.

Transverse Mercator Projection, 10,000-meter Universal Transverse Mercator grid, zone 11. 100,000-foot grid (1:50,000 scale) based on North American Datum, 1927. To place on the predicted North American Datum 1983 move the projection lines 19 meters north and 84 meters east.

Location of geoidetic control established by government agencies is shown on corresponding 1:250,000-scale Geoidetic Control Diagram.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.
